## EDUCATION

- Bachelor of Engineering  
(Computer Engineering)

Suranaree University of Technology  
GPAX 3.26 | 2019-2022

- High School Diploma

Strisuksa School  
| 2016-2019

## SKILLS

### Manual Test

- Test Case
- Test Script
- UAT Document
- User Manual

### Automate Test

- Basic Cypress with Javascript

### API Testing

### SQL

Basic English (CEFR A2)

## TOOLS

- Postman
- Cypress
- Visual Studio Code
- Table Plus
- Git
- Monday

## QUALIFICATION

- Collaboration
- Time Management
- Communication
- Emotional Intelligence

## INTEREST

- Cypress
- Robot Framework
- Agile Development

## EXPERIENCE

### Software Tester Cooperative Education

Y.I.M. Corporation, Bangkok  
| 27 March 2023 - Present

- Postman tools are used to validate that the API flows correctly and make a document describing the issue in English.
- Participate in the software development process by working with developers to discuss and plan system solutions.
- Used to write test cases, test steps, and report on system usage.
- Manual testing approaches are used to test scenarios and test based on customer problem issues.
- Customers have been how trained to use the system and received positive reviews from customers.
- Use Cypress frameworks by JavaScript to create basic automated tests that can add, delete, and edit data.
